

Georgia Open Roads Policy

QUICK CLEARANCE COMMITMENT TO SAFETY AND MOBILITY

WHO'S INVOLVED?

Public safety and other agencies, cities, counties, and businesses endorsing the Open Roads Policy receive recognition as TIME Task Force members.

HOW TO COMMIT

Agencies making the commitment to the Open Roads Policy will sign the Endorsement Resolution (found at www.timetaskforce.com) and return it to info@timetaskforce.com.

OVERVIEW

The Georgia **Open Roads Policy** (ORP) states that whenever a roadway or travel lane is partially blocked or closed by a traffic incident, the Georgia State Patrol, Department of Transportation, local law enforcement and other public safety agencies and responders will re-open the roadway as soon as possible.

BENEFITS

The Atlanta Regional Commission (ARC) passed a resolution supporting the Georgia Open Roads Policy to boost efforts to reduce the metro area's traffic congestion while increasing driver safety. The ORP significantly reduces non-recurring delays and the risk of secondary crashes.
